

# DET GTMO PHOTOS

An aerial photograph of the base.

Det GTMO arrives.

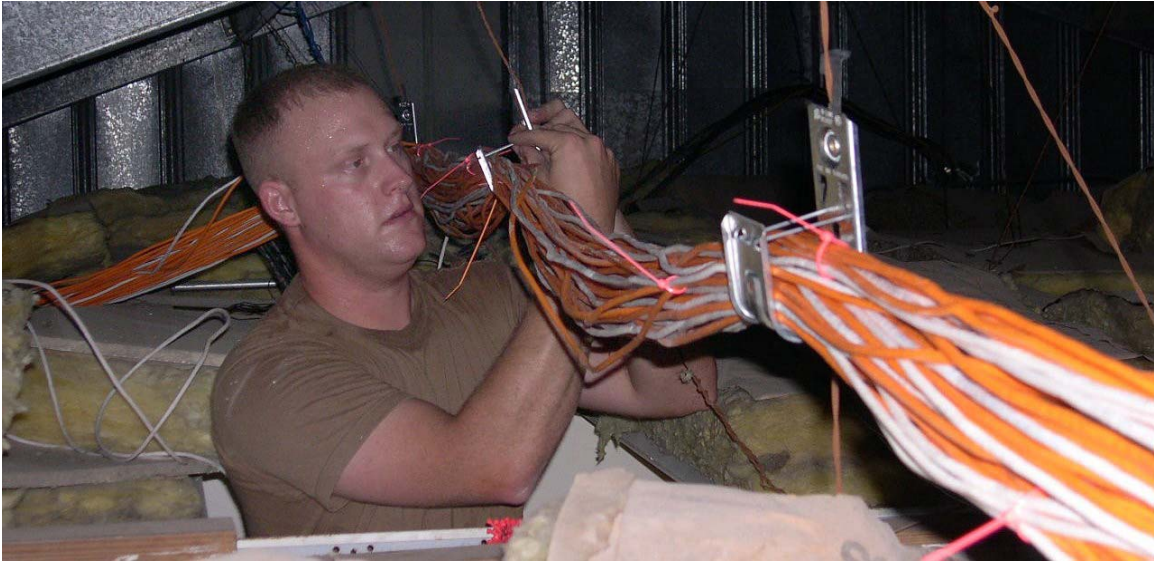

Beachfront property.

BU1 Jonathon Eisfelder freshens the walls of several office spaces with a new coat of paint.

CE2 Andrew Rapp installs new phone and LAN lines throughout the Administration Building to aid the flow of information for the next Seabee Detail to arrive in GTMO.

Iguanas like this one are a regular sight for Seabees on Det GTMO.

Many Seabees were expecting to find Cuba a lush paradise. Instead, it was a bit rocky and dry. The photo below of the golf course is evidence of Cuba's arid nature. It's more of a desert than a jungle, at least where our Seabees are living.

I mean SW1 Avant bastes a Thanksgiving turkey.

SW1 Avant (left) and LT Gustin remove the bird from the oven and prepare to carve the turkey.

Det GTMO shoots a few hoops during the Over the Hump Party.

BU3 Aiken measures the depth of a foundation for the new cabana.

EA3 Knight shoots an elevation for the foundation of the cabana project

EA3Knight (left) and BU3 Arvizu perform a survey for the cabana project.

EOCN Bontrager cuts 2x4s for the cabana project.

Close up of EOCN Bontrager as he changes tires on a large vehicle on a hot day.

Det GTMO works on a dock behind housing.

SW2 Jackson welds material for projects.

(Left to right) EO1 Marceau, CM3 Sharp and BU2 Ribaric construct a Christmas float for a holiday parade.

Seabees put lights on the float.

A well lit float displays the Seabees hard work.

Everyone climbs aboard the float before the parade.

Seabees wave to the crowd during the parade.

Seabees show off their holiday handy work.

Det GTMO Deployment T-Shirt design! Cooooooooool!
